Download

1 (printer output)1 x LAN 10/100 BaseT Ethernet, RJ45 connector (network access to print data)Printing Data Status: Enter, Buffer, PrintingSwitch mode power supplywith input jackInput: 100 – 240 V ACConfiguration software forWindows (2000, XP, Vista) andSubject to changes without prior notice* Some USB printers feature simple GDI (Graphics Device Interface) technology or offer a very special programming interface.. No conversions of machines or interfaces are required Printing, saving, network accessEasy to configureSpecificationsProtocol/mode: SPP (Standard Parallel Port)2 x USB 1.. Increased data securityTo increase data security the Centronics - USB Converter is equipped with a dynamic printer memory.

Here the individual print lines are first collected in the Centronics - USB Converter and then printed out page by page in DIN A4 standard paper size.. So when the spare parts of your conventional log printers start to run out of stock or the printers as such can no longer be replaced, this is what you can do:You can connect a "Centronics - USB Converter" to your existing printer interfaces with hardly any effort.. USB printer to parallel centronics printer interfaceOptimized paper consumptionPeriodical logging considerably reduces the paper consumption of USB printers, also called page printers.
